

GREENLITE™

X-STRUT® SERIES LIFTING STRUTS

You don't need to sacrifice quality or effectiveness to come in at your budget. The Greenlite X-Strut boasts the same features as our bigger struts, but is scaled down for use with lighter-duty vehicles. When combined with the Add-On Jack, our Greenlite is hands-down, the MOST CAPABLE strut you can get in this price range. This light-duty steel strut packs all the features of the X-Strut Series, but measures in at a fraction of the weight. With a 2,500 lb. working load limit, the Greenlite is perfect for departments that see many compact car accidents.

TECHNICAL SPECS

2:1 SAFETY FACTOR

In-house and third party tested

SHORING WLL	Lbs	Kg
<i>Fully extended with centered load</i>		
Standard Strut	2500	1133

Standard Strut

The standard-length Greenlite is designed for typical rescue scenarios involving smaller vehicles. Comes standard with our Swivel CRG and built-in Ratchet Strap with Wire Hooks.

Standard Greenlite X-Strut **GLX-STRT**

Short Strut

Shorter length for lower-lift engagements and increased storage options. Comes standard with our Swivel CRG, and one Ratchet Strap with Wire Hooks. *Ratchet Strap NOT built-in on short strut.*

Short Greenlite X-Strut **SGL-STRT**

Add-On Jack

This jack is made specifically for the Greenlite with a 2,500 lbs. (1,133 Kg) lifting capacity and a 2:1 safety factor.

Greenlite Add-On Jack **GLX-JACK**

- 1 ERGONOMIC CONE PINS**
Our exclusive cone pin design features a flared end, making these pins easy to grip and hard to lose on scene. The flared end also helps automatically line up the available Add-On Jack for fast and easy attachment.
- 2 ON-BOARD RATCHET STRAP**
The Standard Greenlite includes a ratchet strap with wire hooks mounted on the side of the strut chassis, keeping your strap right where you want it for faster response.
- 3 BASE-MOUNTED D-RINGS**
Pivoting rings built into the base plate allow for fast attachment of straps, hooks and chains, or double as a picket receiver when anchoring is needed.
- 4 X-STRUT LIFTING POWER**
Transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, (pictured below) for 2,500lbs. (2:1) of on-demand lifting capability with 12 inches of resettable travel.
